

Koala 50 AS

GN 1/2

GN 1/3

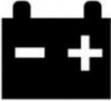

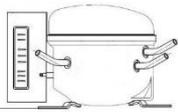

Refrigerated container for the transport of chilled and frozen products at a controlled temperature

- Available in versions:
 - AS: temperature adjustment range: from -25°C to +10°C;
 - ASH: with heating kit and temperature adjustment range: from -25°C to +40°.
- Suitable for shoulders with 1/2 + 1/3 Gastronorm containers.
- Insulation offered by container walls, ensures that the temperature maintenance is guaranteed with a minimum number of ignitions of the cooling unit; this contributes limiting energy consumption.
- Easy to transport by car and easy to handle thanks to the dimensions and weight content.
- Cooling unit is triggered when external temperature is higher than the temperature set with the programmable digital thermostat. This allows to maintain a constant temperature even in case of very high external temperatures.
- In the ASH versions, the heating unit is triggered when external temperature is lower than the temperature set with the programmable digital thermostat. This allows to maintain a constant temperature even in case of very low external temperatures.
- Total compliance with the cold chain at all stages of transport.
- It can be transported using conventional vehicles: it allows to simultaneously transport chilled, frozen and ambient temperature products using a single non-insulated vehicle.
- Equipped with a low consumption fridge unit.
- Dual power source: during transport can be connected to the battery (or auxiliary battery) of the vehicle and, at the destination, can be connected to mains power.
- Manufactured using the rotational moulding technology: mono-block container and door (free of sharp edges, joints and welds).
- Fully recyclable at the end of the operating life.

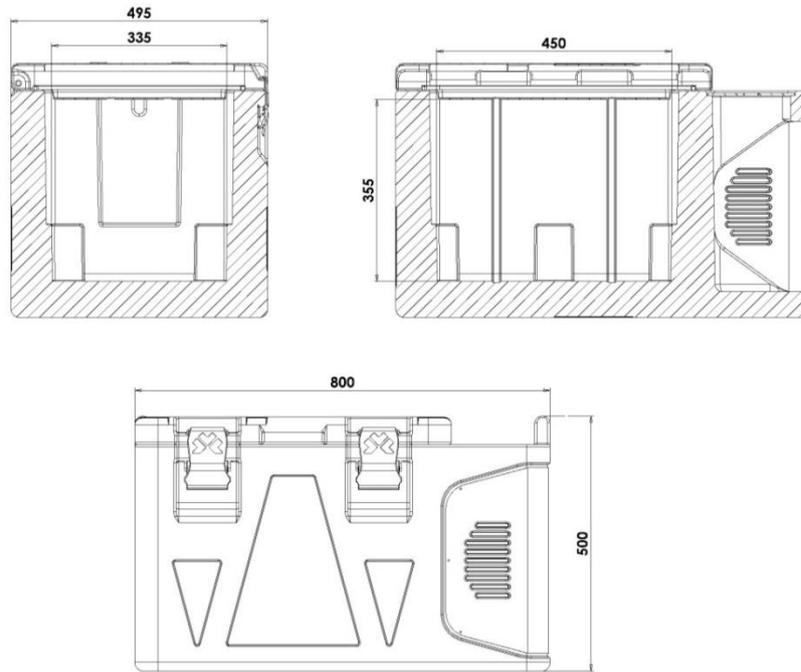

MANUFACTURING MATERIALS

Polyethylene	inner and outer walls of the container and lid; suitable for food contact	Polyurethane	materiale isolante tra le pareti del contenitore e del coperchio, privo di CFC ed HCFC
Silicone	seal	Polyamide and fiberglass	clasp
Aluminum	carter, control panel	Stainless steel	gripping handles

TECHNICAL CHARACTERISTICS

<p>AS version</p>	<ul style="list-style-type: none"> • from 0°C to +10°C • from -18°C to +10°C • from -25°C to +10°C 	<p>ASH version</p>	<ul style="list-style-type: none"> • from 0°C to +40°C • from -18°C to +40°C • from -25°C to +40°C
<p>+/- 0,5 °C</p>	<p>Degree of accuracy in temperature adjustment:</p> <ul style="list-style-type: none"> • +/-0,5 °C. 		<p>Protection against voltage drops of the vehicle battery, in case of falling below of the limit value of 11V.</p>
	<p>Equipped with two cables:</p> <ul style="list-style-type: none"> • for power supply to 230Vac 50-60Hz. 		<ul style="list-style-type: none"> • for feeding to 12/24Vdc (with cigarette lighter socket).
	<p>Hermetic compressor with electronic control unit for adjustment and control equipped with overvoltage protections.</p>	<p>GAS</p>	<p>Coolant gas:</p> <ul style="list-style-type: none"> • R134a - 75g (version 0/+10°C e -18/+10°C) - 110 g (other version).
	<p>Cooling unit performance guaranteed for use at ambient temperature:</p> <ul style="list-style-type: none"> • From +10°C to +30°C. 		<p>Container (insulated case) guaranteed for use:</p> <ul style="list-style-type: none"> • from -30° to +100°C.
	<p>Adjustment and control of the temperature with programmable digital thermostat.</p>		<p>Cooling unit equipped with a "roll-bond" static evaporator.</p>
	<p>Seal of the lid can be removed easily.</p>		<p>Integrated stainless steel handles.</p>
	<p>Hinges integrated in the container.</p>		<p>Melform hook closure in shockproof material.</p>
	<p>Evaporator protection internal grid made of plasticised metal wire.</p>		<p>Mono-block structure, no sharp edges, joints and welds.</p>
	<p>Available (on request) USB datalogger to record temperature data during transport.</p>		<p>Insulated with CFC and HCFC-free polyurethane foam.</p>
